

### Example Artwork

**WRONG BLEED**

**CORRECT BLEED**

Try to leave around 3mm of space around each piece of artwork.  
We can't quite cut right up to the edge of a coloured border, so we tuck the cutline in by about 1mm to give the blade a little room to play with.

# A4

Your artwork **must** extend past the **red** line.  
We trim along the red line.

The **green** line is the safe area, keep your artwork inside it.
